Van Ness presents new **Fold & Go!**™ line of portable/foldable pet cots offer a useful and convenient means of providing comfortable bedding for your pet when your on the go, a cool place to lie outside or even when you bring your best friend outdoor camping. Our pet cots are made from high grade aluminum tubing with non-skid feet and a canvas cover that's easy to clean, removeable for convenient machine washing. This durable, pet bedding solution raises pets off the ground to help increase ventilation, keeping pets cool.

To help protect surfaces where your pet lies and to keep them warm and dry we introduce the **Dri-Fleece**™ Pet Bedding mat. This is a deep pile material that wicks moisture for quick drying. It's hypo-allergenic, non-irritating, chemical-free and machine washable. It can be used to protect floors, furniture, the upholstery in your car and makes a comfortable place to lie in your pet's crate. It's also cut-to-fit customizable to help you fit either of 2 sizes to your pets needs.

All of our unique, new pet bedding solutions are recommended and used by vets, breeders & kennels, assuring you of safety and quality.
